## THE PROJECT LEADERSHIP DIFFERENCE

Successful projects require excellent project leadership skills.

However, many projects struggle because the project manager is thrown in at the deep end and the demands of project leadership are underestimated. A sound grasp of project methodology is important, but methodology alone is not enough. In our experience, it’s the “soft” skills that are the hardest, and these are the skills that are often overlooked.

## IMPROVING PROJECT SUCCESS

Traditionally, investment in project leadership has taken a back seat to teaching project management methodology. The result is great knowledge about the science of project management - and a lack of understanding of the art, or human side of leading projects.

We also know that the challenges that come with project leadership are different to the challenges of line management. Therefore, generic leadership programmes are unlikely to help.

## TOPICS

- The art and science of project management
- Traits of great project leaders
- Influence versus concern
- Stakeholder management
- Creating productive teams

## CANCELLATION POLICY

If you can’t attend, you may send a substitute attendee. Please advise us of the attendee’s name as soon as possible. If you cancel between 10 and 6 days before the course start date, 50% of the fee will be refunded. If you cancel with less than 5 days’ notice there will be no refund.
